

# Fruit-Cal

## Calcium and zinc for high quality productions

Increased fruit quality (caliber, consistency, shelf life) and post-harvest rotten reduction

Zn

Ca

Cures and prevents physiopathies related to calcium deficiency (necrosis, apical rot, pitting)

Zn

Ca

Calcium with acidifying action for an optimal and rapid penetration of the elements

Ca

Solubilizes the nutritive elements already present in the leaf

Acidifies the pH of the solution
